EDUCATION

New York University Master of Science in Computer Engineering (GPA - 3.9/4)	Graduation - May 2026
Visvesvaraya Technological University Bachelors in ECE (GPA - 8.9/10)	Graduation - Aug 2021

SKILLS

Programming languages: C++, C#, **Python**, JavaScript, Type Script, SQL.
Web Development: HTML, CSS, React, Node.js, Bootstrap, Express.js, Springboot.
Database: RDBMS (MySQL, PostgreSQL), NoSQL (MongoDB, JSON), Dataverse.
Cloud: **Azure** (AI services, Logic Apps, Databricks, Function Apps, Storage blobs, Security Groups), AWS (EC2, S3, Amplify, Lambda Function, API Gateway, Cognito, IAM, AppSync).
Tools: Git, **Azure DevOps**, Visual Studio, **Dynamics CRM 365, ERP**, XRM Toolbox, .NET, Docker, Power BI.
Methodology: Agile, Waterfall.
AI/ML: Classification, Pattern Recognition, Data Extraction, MLOps, Neural Network, PCA, LLM.

EXPERIENCE

New York University, NYC, USA	Aug 2024 - Present
-------------------------------	--------------------

Software Developer (On-Campus)

- Engineered to an AI-driven Remote Patient Monitoring System, funded by the National Science Foundation, USA, employing React Native, Microservice Architecture, TypeScript for real-time health monitoring.
- Performed an ETL process to convert unstructured NoSQL JSON data into structured SQL data using GCP cloud functions. built visualization dashboard in AWS Quick sight which improves data analytics by 30%.

Price Water House Coopers, (PwC)

Senior Developer (Azure, Dynamics 365, PowerApps)

Jul 2023 - Aug 2024

- Analyzed business goals and customer requirements to synthesize a comprehensive product roadmap and solution architecture for Microsoft Dynamics 365 B2B Health Application.
- Constructed a Cognitive Neural model using Azure ML to extract data from cards, integrated with Power Automate via API, reducing manual data processing time by 75%.
- Mentored 5 interns, conducted thorough code reviews for a team reducing bug occurrences by 25% and enabling a faster deployment cycle, aligning with agile methodologies.
- Engineered and optimized serverless database structure that improved data storage, retrieval, and processing workflows; achieved a 20% reduction in latency across diverse digital environments for seamless operations.
- Implemented Azure CI/CD pipelines using C#, streamlining the solution migration to 3 higher environments, resulting in a 90% decrease in deployment time and enhanced software development lifecycle.

Associate Developer (Azure, Dynamics 365, PowerApps)

Aug 2021 – Jun 2023

- Designed 6 targeted security protocols using Azure security groups that ensured appropriate control over logged-in users' privileges by assessing role hierarchies: fortifying data protection measures while eliminating virtually all instances of unauthorized access.
- Built a B2B responsive, Dynamics 365 Marketing application for handling acquisition, creating deals, and onboarding, with capabilities like external data importing, data visualization using Power BI and Email-tracking.
- Produced and integrated 5 Power BI dashboards to monitor, analyze, data, established multi-level data filtering and security rules to access data, improving in data visualization and analysis efficiency.
- Optimized an automation flow using Python to clean, map and import 100K rows of data from Excel file to an RDBMS database, reducing processing time from 5 hours to 1 hour (80% increase in efficiency).
- Composed client and server-side custom configurations for CRM using JavaScript, plugins, custom workflows, webhooks, Business rules yielding a 35% faster server response.
- Designed and implemented RESTful APIs using ASP.NET, improving data exchange efficiency by 70%.

PROJECTS

Case Management Application (Capstone Project) | Dynamics 365, Power Automate, Business Process Flows, Omnichannel

- Implemented CRM Application with power portal and omnichannel integration to automate case creation, task assignment, and feedback collection, improving query resolution efficiency.

Hospital Management System (Client) | Dynamics 365, Power Apps, Dataverse, Azure, Power Automate.

- Developed a Microsoft ERP system to manage Appointments, Patient and Doctor records, Lab Reports and Medical History.
- Leveraged Microsoft Dataverse as database, Azure for Security and API integration, Power BI for analytics and reporting.

E-commerce store (Full Stack) | HTML, CSS, JavaScript, React, Mongo DB, Node JS

- Developed a full-stack e-commerce application using React, Node.js, and MongoDB, integrating AWS Cognito for user authentication, Lambda functions for payment processing, DynamoDB for data persistence, and AWS S3 for media storage. .

CERTIFICATIONS

Power Platform App Maker Associate	Power BI Data Analyst Associate	AWS Cloud Practitioner
Power Platform Developer Associate	Azure Data Scientist Associate	Azure Data Fundamentals
Power Platform Solution Architect Expert
