EDUCATION

New York University | Master of Science in Computer Engineering (GPA - 3.9)

Graduation - Dec 2025/May 2026

EXPERIENCE

New York University, NYC, USA

Aug 2024 - Present

Software Developer (On-Campus)

- Engineered an AI-driven Remote Patient Monitoring System, funded by the National Science Foundation (NSF), employing React Native and TypeScript for real-time health monitoring. Secured a total of \$110,000 in non-equity funding and advanced to the NYU-Berkeley Entrepreneurship Challenge semifinals and the NYU Stern Accelerator Program.
- Performed an ETL process to ingest unstructured NoSQL JSON data of 10000+ users into Postgres database using GCP cloud functions. built visualization dashboard in AWS Quick sight and Q to visualize the data.
- AI-based insurance analytics solution to help insurance companies to provide accurate risk assessments, predictive analytics, and underwriting using wearables data.

Price Water House Coopers, (PwC)

Senior Associate (Azure, Dynamics 365, PowerApps)

Jul 2023 - Aug 2024

- Constructed a Cognitive Neural model using Azure ML to extract data from cards, integrated with Power Automate via API, reducing manual data processing time by 75%.
- Mentored 2 interns, conducted thorough code reviews for a team reducing bug occurrences by 25% and enabling a faster deployment cycle, aligning with agile methodologies.
- Engineered and optimized serverless database structure that improved data storage, retrieval, and processing workflows; achieved a 20% reduction in latency across diverse digital environments for seamless operations.
- Implemented Azure CI/CD pipelines to streamline the solution migration to 3 higher environments, resulting in a 90% decrease in deployment time and enhanced software development lifecycle.
- Analyzed business goals and customer requirements to synthesize a comprehensive product roadmap and solution architecture for Microsoft Dynamics 365 B2B Health Application.

Associate (Azure, Dynamics 365, PowerApps)

Aug 2021 – Jun 2023

- Designed 6 targeted security protocols using Azure security groups that ensured appropriate control over logged-in users' privileges by assessing role hierarchies: fortifying data protection measures while eliminating virtually all instances of unauthorized access.
- Built a B2B responsive, Dynamics 365 Marketing application for handling acquisition, creating deals, and onboarding, with capabilities like external data importing, data visualization using Power BI and Email-tracking.
- Produced and integrated 5 Power BI dashboards to monitor, analyze, data, established multi-level data filtering and security rules to access data, improving in data visualization and analysis efficiency.
- Optimized an automation flow used to clean, map and import 100K rows of data from Excel file to Database from 5 hours to 1 hour, resulting in an 80% increase in efficiency.
- Composed client and server-side custom configurations for CRM using JavaScript, plugins, custom workflows, webhooks, Business rules yielding a 35% faster server response.

PROJECTS

Executive Performance Analytics Dashboard | Azure, Power Automate, Power BI, Canvas Apps.

- Architected a data pipeline using Power Automate to process and transform quarterly, monthly, and yearly reports, ensuring seamless data ingestion and transformation for analysis in Power BI.
- Generated interactive dashboards in Power BI and Canvas Apps, enabling directors to analyze key business metrics, track trends, and gain actionable insights from structured reports, enhancing reporting efficiency by 30%.

Hospital Management System | AWS, React, JavaScript, S3, EC2

- Developed a React application for managing patient appointments, medical records, and lab reports, enhancing MySQL data consistency with triggers and stored procedures, reducing anomalies by 50% and improving performance by 40%.

CERTIFICATIONS

Power Platform App Maker Associate

Power BI Data Analyst Associate

AWS Cloud Practitioner

Power Platform Developer Associate

Azure Data Scientist Associate

Azure Data Fundamentals

Power Platform Solution Architect Expert

TRAININGS

AI-102: Designing and implementing a Microsoft Azure AI Solution (PWC) »

May 2024

Microsoft Power Apps, Dynamics 365 training and Azure (PWC) »

Aug 2021 - Dec 2022

SKILLS

Programming languages: C#, Python, JavaScript, Type Script, SQL.

Web Development: HTML, CSS, React, Node.js, Express.js, Springboot.

Database: Dataverse, RDBMS (MySQL, PostgreSQL), NoSQL (MongoDB, JSON).

Cloud: Azure (AI services, Logic Apps, Databricks, Function Apps, Storage blobs, Security Groups), AWS (EC2, S3, Amplify, Lambda Function, API Gateway, Cognito, IAM, AppSync, Quicksight, Q, SageMaker).

Tools: Git, Azure DevOps, Visual Studio, Dynamics CRM 365, ERP, XRM Toolbox, .NET, Power Automate, Power BI.

Methodology: Agile, Waterfall.

AI/ML: Machine Learning, Deep Learning, Big Data, ML-Ops, Principal component analysis.
