

Education

New York University, New York, NY

Sep 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Machine Learning, Deep Learning, Big Data, Advanced Java, Data Structures

Experience

- **CampusMesh** Jan 2026 – Present
Software Engineer
– Developed scalable **Node.js microservices** powering real-time academic workflows across study groups, messaging, calls, notifications, and profile management, backed by **MySQL (Sequelize)** and **DynamoDB**.
– Deployed **serverless architecture** on AWS using **Serverless Framework** with **Lambda, API Gateway, S3, and CloudFront** across **4 environments** (local, dev, staging, production); enforced security with **KMS-managed keys, SSM Parameter Store**, and least-privilege **IAM**.
- **Amazon** May 2025 – Aug 2025
Software Development Engineer Intern
– Engineered backend services in **Java** using **Coral, Smithy, Dagger**, and **CBOR serialization**; applied low-level design patterns and ensured reliability with unit, integration, and automated system tests via **Mockito**.
– Built a **React.js** frontend with **TypeScript**, optimized API integration, advanced filtering, and client-side caching, reducing page load time by **40%**.
– Collaborated with testers to reproduce and resolve opened defects; supported **multi-stage CI/CD** deployments through **AWS CDK, API Gateway, Lambda, DynamoDB, S3, and IAM**.
- **New York University (Novel AI Technologies, Inc.)** Aug 2024 – Present
Software Developer (On-Campus)
– Developed an insurance analytics platform (**React, Node.js, REST APIs**); deployed **Docker** containers on **EC2**, implemented Stripe billing, RBAC, and row-level security, generating **\$50K+** revenue.
– Engineered **ETL pipelines** transforming **NoSQL** into **PostgreSQL** with **concurrency control and locking**; processed **250K+** records and powered **AWS QuickSight** dashboards.
- **PricewaterhouseCoopers (PwC)** Aug 2021 – Aug 2024
Senior Software Engineer
– Developed a distributed backend on **Microsoft Azure** for a health platform, integrating with **Microsoft CRM** and implementing asynchronous message processing with fault-tolerant retries over **SQL Server**.
– Owned features from requirements through deployment and on-call support; led code reviews and mentored engineers on **software design principles**, reducing production bugs by **25%**.
– Optimized bulk ingestion of **100K-row** Excel feeds with parallel execution, cutting transformation runtime from **5 hours to 1 hour**.

Projects

- **Advanced Expense Tracker (Java Desktop Application)** | *Java, JavaFX, JDBC, SQLite, Maven, JFreeChart*
– Architected a modular **Java application** supporting individual and group expenses with secure login, applying **OOP principles, Collections, Maps, Lists, Sets**, and **MVC & DAO design patterns**.
– Implemented concurrent transaction handling and real-time cost splitting using **multithreading** and synchronized blocks for thread-safe **JDBC** database updates.
- **Hospital Management System (Full-Stack Application)** | *React, Node.js, Express, MongoDB, HTML, CSS*
– Built a **full-stack healthcare platform** using **React, Node.js, Express, and MongoDB** to manage appointments, patient records, lab reports, and medical history with **role-based access control**.
– Delivered responsive UI with **HTML5, CSS, JavaScript (ES6), and TypeScript**, integrating REST endpoints and relational query patterns for patient and appointment data.

Skills

- **Programming Languages:** Java, JavaScript (ES6), Python, C++, TypeScript, SQL
- **Web Technologies:** Maven, HTML5, CSS, React.js, TypeScript, REST API, Microservices, Node.js, Express.js
- **Database:** SQL Server, MySQL, PostgreSQL, JDBC, MongoDB, DynamoDB
- **Cloud:** AWS (CDK, EC2, S3, DynamoDB, API Gateway, Lambda, IAM), Azure (Function Apps, Storage), Docker, Kubernetes, CI/CD
- **Tools:** Git, Visual Studio, Cursor, JUnit, Mockito, Postman, Docker, Power BI

Certifications

AWS Cloud Practitioner

Azure Data Fundamentals

Stanford Machine Learning (Coursera)
