

Education

New York University, New York, NY

Aug 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Machine Learning, Deep Learning, Big Data, Data Structures

Experience

- **CampusMesh** Jan 2026 – Present
Software Engineer
New York, US
 - Developed scalable **Node.js microservices** with **TypeScript** powering real-time academic workflows across study groups, messaging, notifications, and profile management, backed by **MySQL (Sequelize)** and **DynamoDB**.
 - Deployed **serverless architecture** on AWS using **Serverless Framework** with **Lambda**, **API Gateway**, **S3**, and **CloudFront** across **4 environments**; enforced security with **KMS-managed keys**, **SSM Parameter Store**, and least-privilege **IAM**.
 - Built embedding-based semantic search for CampusIQ (AI Assistant), improving retrieval accuracy for user-facing onboarding and help flows.
- **Amazon** May 2025 – Aug 2025
Software Development Engineer Intern
Seattle, US
 - Built a **React** frontend with **TypeScript**, optimized API integration, advanced filtering, and client-side caching to improve page load performance and reliability for internal users.
 - Provisioned **serverless Infrastructure-as-Code** using **AWS CDK** with API Gateway, Lambda, DynamoDB, S3, and IAM; supported **multi-stage CI/CD** deployments across regions.
 - Engineered backend services in **Java** (Coral, Smithy, Dagger, CBOR); applied **low-level design patterns** with unit/integration testing via **Mockito**.
- **New York University (Novel AI Technologies, Inc.)** Aug 2024 – Present
Software Developer
New York, US
 - Developed an insurance analytics platform (**React**, **Node.js**, **TypeScript**, **REST APIs**) deployed via **Docker** on **EC2**; implemented Stripe billing, RBAC, and row-level security for production users.
 - Engineered **ETL pipelines** transforming **NoSQL** into **PostgreSQL** with **concurrency control and locking**; powered **AWS QuickSight** dashboards for analytics workflows.
 - Streamlined underwriting via a broker portal with **WebSocket-based real-time communication** and **HTML/CSS/JavaScript** interfaces integrated with insurer platforms.
- **PricewaterhouseCoopers (PwC)** Aug 2021 – Aug 2024
Senior Software Engineer
Bengaluru, India
 - Developed a distributed backend on **Microsoft Azure** for a health platform integrating with **Microsoft CRM**, with asynchronous message processing and fault-tolerant retries over **SQL Server**.
 - Optimized bulk ingestion of **100K-row** Excel feeds with parallel execution, cutting transformation runtime from **5 hours to 1 hour**.

Projects

- **Hospital Management System (Full-Stack Web Application)** | *React, TypeScript, Node.js, Express, MongoDB, HTML, CSS*
 - Built a **full-stack healthcare platform** (**React**, **Node.js**, **Express**, **MongoDB**) managing appointments, patient records, and medical history with **role-based access control** and responsive **HTML/CSS** layouts.
 - Designed REST endpoints and document-based data models in **MongoDB**, connecting UI components to backend services with **JavaScript (ES6)** and **TypeScript**.
- **Advanced Expense Tracker (Python Desktop Application)** | *Python, Tkinter, SQLite3, Pandas, Matplotlib*
 - Architected a modular **Python application** for individual and group expenses with secure login, applying **OOP principles** and **MVC & DAO design patterns** over **SQLite3**.

Skills

- **Programming Languages:** TypeScript, JavaScript (ES6), Python, Java, C++, SQL
- **Web & Backend:** React, Node.js, Express.js, HTML, CSS, REST API, GraphQL, Microservices, Sequelize
- **Databases:** PostgreSQL, MySQL, MongoDB, DynamoDB
- **Cloud & DevOps:** AWS (CDK, EC2, S3, DynamoDB, API Gateway, Lambda, IAM), Docker, Kubernetes, CI/CD
- **AI/ML:** LLM Fine-tuning, RAG (LangChain, FAISS), NLP, Deep Learning, Hugging Face
- **Tools & Platforms:** Git, Linux, Cursor, GitHub Copilot, Visual Studio, Postman, Jupyter

Certifications

AWS Cloud Practitioner

Stanford Machine Learning (Coursera)

Azure Data Fundamentals
