

Education

New York University, New York, NY

Sep 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Machine Learning, Deep Learning, Big Data, Advanced Java, Data Structures

Experience

- **Amazon** May 2025 – Aug 2025
Software Development Engineer Intern Seattle, US
 - Engineered backend services in **Java** (Coral, Smithy, Dagger, CBOR); applied **low-level design patterns** with unit/integration testing via **Mockito**, cutting backend execution time by **35%**.
 - Built a **React** frontend with **JavaScript (ES6)**, optimized API integration, advanced filtering, and client-side caching, reducing page load time by **40%**.
 - Provisioned **serverless Infrastructure-as-Code** using **AWS CDK** with API Gateway, Lambda, DynamoDB, S3, and IAM; enabled **multi-stage, multi-region CI/CD** deployments.
- **New York University (Novel AI Technologies, Inc.)** Aug 2024 – Present
Software Developer (On-Campus) New York, US
 - Developed a client-facing analytics platform (**React, Node.js, JavaScript, REST APIs**) on **Docker/EC2**; implemented Stripe billing, **RBAC**, and row-level security for external stakeholder teams.
 - Engineered **SQL/ETL pipelines** transforming **NoSQL** into **PostgreSQL**; powered **AWS QuickSight** dashboards for stakeholder reporting and performance measurement.
- **CampusMesh** Jan 2026 – Present
Software Engineer New York, US
 - Developed scalable **Node.js microservices** in a **distributed architecture**, backed by **MySQL (Sequelize)** and **DynamoDB** for real-time academic workflows.
 - Deployed **serverless microservices** on **AWS** (Lambda, API Gateway, S3, CloudFront) across **4 environments** with **KMS, SSM Parameter Store**, and least-privilege **IAM**.
- **PricewaterhouseCoopers (PwC)** Aug 2021 – Aug 2024
Senior Software Engineer Bengaluru, India
 - Developed a **distributed backend** on **Microsoft Azure** with asynchronous message processing and fault-tolerant retries over **SQL Server** stores.
 - Built **Power BI dashboards** processing large datasets from multiple databases; led code reviews and mentored engineers on **software design principles**.

Projects

- **Advanced Expense Tracker (Java Desktop Application)** | *Java, JavaFX, JDBC, Maven, SQLite, OOP*
 - Architected a modular **Java application** with **OOP principles, MVC/DAO patterns**, and **JDBC**; implemented **multithreading** for thread-safe database updates.
- **Hospital Management System (Full-Stack Application)** | *React, JavaScript, Node.js, Express, MongoDB, SQL*
 - Built a **full-stack platform** (**React, JavaScript, Node.js, Express, MongoDB**) with **REST APIs**, relational query patterns, and **role-based access control**.

Skills

- **Programming Languages:** Java, JavaScript (ES6), Python, TypeScript, SQL, C++
- **Web Technologies:** React, Node.js, REST API, Microservices, HTML, CSS, Maven, Express.js
- **Database:** PostgreSQL, MySQL, SQL Server, MongoDB, DynamoDB, JDBC
- **Cloud:** AWS (CDK, EC2, S3, Lambda, API Gateway, DynamoDB, IAM, QuickSight), Azure, Docker, CI/CD
- **Tools:** Git, Mockito, JUnit, Cursor, GitHub Copilot, Visual Studio, Postman, Power BI

Certifications

AWS Cloud Practitioner

Azure Data Fundamentals
