

Education

New York University, New York, NY

Sep 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Machine Learning, Deep Learning, Big Data, Advanced Java, Data Structures

Experience

- **PricewaterhouseCoopers (PwC)** Aug 2021 – Aug 2024
Senior Software Engineer
Bengaluru, India
 - Developed a distributed **.NET/Azure** backend for a health platform integrating with **Microsoft CRM**, with asynchronous message processing and fault-tolerant retries over **SQL Server** stores.
 - Participated in **Azure DevOps** pipelines and peer code reviews; optimized **SQL query performance** and bulk ingestion of **100K-row** datasets, cutting transformation runtime from **5 hours to 1 hour**.
 - Implemented **security controls** for production services; diagnosed incidents across multi-service flows and mentored engineers on **software design principles**.
- **Amazon** May 2025 – Aug 2025
Software Development Engineer Intern
Seattle, US
 - Engineered backend services in **Java** (Coral, Smithy, Dagger, CBOR); applied **OOP design patterns** with unit/integration test automation via **Mockito** and **CI/CD** releases.
 - Built a **React** web application with **JavaScript**, **CSS**, and optimized API integration; provisioned **AWS CDK** infrastructure (API Gateway, Lambda, DynamoDB, S3, IAM).
 - Established **OAuth** and Role-Based Access controls; collaborated in peer reviews to improve code quality and production reliability.
- **New York University (Novel AI Technologies, Inc.)** Aug 2024 – Present
Software Developer (On-Campus)
New York, US
 - Developed a web analytics platform (**React**, **Node.js**, **JavaScript**, **REST APIs**) on **Docker/EC2**; implemented **RBAC**, row-level security, and Stripe billing for regulated client workflows.
 - Engineered **ETL/SQL pipelines** transforming **NoSQL** into **PostgreSQL** with concurrency controls; tuned data models for reporting dashboards.
- **CampusMesh** Jan 2026 – Present
Software Engineer
New York, US
 - Developed **Node.js microservices** with **JavaScript/TypeScript**, backed by **MySQL** and **DynamoDB**; deployed containerized services on **AWS** with least-privilege **IAM** and **KMS** security controls.

Projects

- **Advanced Expense Tracker (Java Desktop Application)** | *Java, JDBC, Maven, SQLite, OOP, MVC*
 - Architected a modular **Java application** with **OOP/MVC patterns** and **JDBC**; implemented automated unit tests and thread-safe database updates.
- **Hospital Management System (Full-Stack Web Application)** | *React, JavaScript, Node.js, Express, MongoDB, CSS, SQL*
 - Built a **full-stack web application** (**React**, **JavaScript**, **Node.js**, **CSS**) with **REST API services** and document-based **MongoDB** storage.

Skills

- **Programming Languages:** Java, JavaScript (ES6), C#, Python, TypeScript, SQL
- **Web Technologies:** React, Node.js, ASP.NET, REST API, Microservices, HTML, CSS, Maven
- **Database:** SQL Server, PostgreSQL, MySQL, MongoDB, DynamoDB, JDBC
- **Cloud & DevOps:** Azure (DevOps, Function Apps, Storage), AWS, Docker, Kubernetes, Jenkins, CI/CD, Terraform
- **Tools:** Git, Mockito, JUnit, Postman, OAuth, Linux, Cursor, GitHub Copilot

Certifications

Azure Data Fundamentals

AWS Cloud Practitioner
