

Education

New York University, New York, NY

Sep 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Machine Learning, Deep Learning, Big Data, Advanced Java, Data Structures

Experience

- CampusMesh** Jan 2026 – Present
Software Engineer New York, US
 - Leveraged enterprise **AI retrieval pipelines (RAG)** for CampusIQ to streamline repetitive research workflows and improve contextual accuracy by **30%** through embedding-based semantic search.
 - Deployed **serverless services** on **AWS (Lambda, API Gateway, S3, CloudFront)** across **4 environments** with **Git**-driven promotion, **KMS/SSM** secrets, and **least-privilege IAM**.
 - Developed **Node.js microservices** and **REST APIs** backed by **MySQL (Sequelize)** and **DynamoDB** for member-facing academic workflows.
- Amazon** May 2025 – Aug 2025
Software Development Engineer Intern Seattle, US
 - Provisioned **Infrastructure-as-Code** with **AWS CDK** (API Gateway, Lambda, DynamoDB, S3, IAM), enabling **multi-stage CI/CD** promotions across non-production and production regions for internal platform services.
 - Engineered backend **Java microservices (Coral, Smithy, Dagger)** with **REST API** integration; wrote **JUnit** and **Mockito** tests and documented solution design for cross-team handoff.
 - Established Role-Based Access across **4+ roles** via **OAuth**, **Midway SSO**, and **HELIS**; troubleshoot data and permission flows between legacy and cloud-hosted services.
- New York University (Novel AI Technologies, Inc.)** Aug 2024 – Present
Software Developer (On-Campus) New York, US
 - Implemented **RBAC** and row-level security on an insurance analytics platform (**React, Node.js, REST APIs**) deployed via **Docker** on **Linux EC2**, enforcing consistent access controls across multi-tenant insurer data.
 - Engineered **Python ETL pipelines** moving data from **NoSQL** into **PostgreSQL**; processed **250K+** records and documented transformation logic for downstream reporting and validation.
 - Collaborated with product owners and QA partners on broker portal integrations, service requests, and automated status updates via **WebSocket** channels.
- PricewaterhouseCoopers (PwC)** Aug 2021 – Aug 2024
Senior Software Engineer Bengaluru, India
 - Developed distributed backend services on **Microsoft Azure** for a regulated **healthcare** platform integrating **Dynamics 365 CRM** and **SQL Server**; mapped data flows between cloud services and on-prem adjacent systems.
 - Automated repetitive ingestion and validation with **Azure Logic Apps** and parallel batch processing, cutting **100K-row** feed execution from **5 hours to 1 hour**; shipped changes through **Azure DevOps CI/CD** with documented runbooks.
 - Deployed an **NLP-based OCR model** on Azure to extract structured fields from documents, reducing manual data handling time by **75%** while maintaining audit-friendly processing logs.

Projects

- Advanced Expense Tracker (Java Application)** | *Java, JDBC, SQLite, JUnit, Multithreading*
 - Architected a modular **Java application** with **OOP, MVC & DAO** patterns, concurrent transaction handling, and **JUnit** tests for core business logic over **SQL** persistence.
- InviLite (Automation & Monitoring Platform)** | *Python, AWS, Lambda, ECS, CloudWatch, Kinesis*
 - Built automated ingestion and triage pipelines on **AWS Lambda/ECS** with **CloudWatch** logging; reduced manual incident investigation from **1–2 hours to minutes** through scripted classification workflows.

Skills

- Programming Languages:** Java, Python, TypeScript, JavaScript (ES6), SQL, C++
- Web & Backend:** REST API, Microservices, React, Node.js, Express.js, Spring
- Database:** SQL Server, PostgreSQL, MySQL, DynamoDB, MongoDB
- Cloud & DevOps:** AWS (CDK, EC2, ECS Fargate, Lambda, S3, IAM, CloudWatch), Azure, Docker, Kubernetes, CI/CD, Azure DevOps, GitHub Actions
- Testing & Tools:** JUnit, Mockito, Git, Linux, Postman, Visual Studio, Cursor, Jupyter

Certifications

AWS Cloud Practitioner

Azure Data Fundamentals

Stanford Machine Learning (Coursera)
