

Education

New York University, New York, NY

Aug 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Data Structures, Machine Learning, Big Data

Experience

- Amazon

May 2025 – Aug 2025

Software Development Engineer Intern

Seattle, US

– Built an internal operations portal with a **React 18** and **TypeScript** UI and backend **REST APIs**; shipped features end-to-end from concept through **multi-stage CI/CD** deployment with real operations users.

– Provisioned **AWS CDK** infrastructure (API Gateway, Lambda, DynamoDB, S3, IAM); reduced provisioning time by **70%** and improved release repeatability across regions.

– Iterated on UI workflows from operator feedback; optimized API integration, filtering, and caching to improve portal responsiveness by **40%**.
- New York University (Novel AI Technologies, Inc.)

Aug 2024 – Present

Software Developer

New York, US

– Developed an operational analytics platform (**React**, **TypeScript**, **Node.js**, **REST APIs**) on **Docker/EC2**; partnered with business users to configure workflows, launch features, and refine UI based on daily feedback.

– Built a broker portal integrated with external insurer systems; automated onboarding and status updates via **WebSocket** channels and **RBAC** controls across **6 clients**.

– Engineered **SQL/ETL** pipelines into **PostgreSQL** and **AWS QuickSight** dashboards; processed **250K+** records to support operations reporting and data validation.
- CampusMesh

Jan 2026 – Present

Software Engineer

New York, US

– Developed **Node.js** services and **REST APIs** for member-facing operational workflows; shipped fixes and enhancements through **Git**-based **CI/CD** across **4 AWS environments**.

– Deployed serverless components (**Lambda**, **API Gateway**, **S3**, **CloudFront**) with documented runbooks; troubleshooted production issues and participated in code reviews.
- PricewaterhouseCoopers (PwC)

Aug 2021 – Aug 2024

Senior Software Engineer

Bengaluru, India

– Automated business workflows with **Azure Logic Apps** and **Power Automate**; optimized bulk ingestion from **100K-row** feeds, cutting execution from **5 hours to 1 hour**.

– Shipped production changes through **Azure DevOps CI/CD**; led code reviews and reduced defects by **25%** while supporting operations stakeholders on **SQL Server** backends.

Projects

- Hospital Management System (Operational Full-Stack Portal) | *React, TypeScript, Node.js, Express, MongoDB, CSS*

– Built a full-stack web application with **React**, **TypeScript**, and **Node.js REST APIs** for appointments, records, and lab reports; implemented **role-based access control** and responsive **CSS** layouts for operations-style users.

– Wrote API **unit tests** for critical paths and documented modules for maintainable handoff across contributors.

Skills

- **Programming Languages:** TypeScript, JavaScript (ES6), Python, Java, SQL, C++

• **Web & Backend:** React, Node.js, Express.js, HTML, CSS, REST API, GraphQL API, Microservices

• **Databases:** PostgreSQL, MySQL, MongoDB, DynamoDB

• **Cloud & DevOps:** AWS (CDK, EC2, Lambda, API Gateway, S3, IAM), Docker, Kubernetes, CI/CD, Git, npm

• **Tools & Platforms:** Linux, Postman, Visual Studio, Cursor, GitHub Copilot, Power Automate

Certifications

AWS Cloud Practitioner

Azure Data Fundamentals

Stanford Machine Learning (Coursera)
