

Education

New York University, New York, NY

Aug 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Data Structures, Machine Learning, Big Data, Advanced Java

Experience

- **CampusMesh** Jan 2026 – Present
Software Developer
New York, US
 - Developed and maintained application features in **JavaScript/Node.js** services; translated business requests into technical changes across the full **software development lifecycle** with **Git** version control.
 - Wrote and optimized **SQL queries** over **MySQL (Sequelize)**; troubleshooted production defects, participated in **code reviews**, and documented module behavior for team handoff.
 - Collaborated with product stakeholders on estimates, delivery status, and rollout support across **4 AWS environments**.
- **Amazon** May 2025 – Aug 2025
Software Development Engineer Intern
Seattle, US
 - Engineered backend **RESTful APIs** in **Java**; implemented approved designs with **unit and integration tests** via **Mockito** and incorporated feedback from structured **code reviews**.
 - Built a **React** UI integrated with backend services; troubleshooted integration defects and supported releases through **multi-stage CI/CD** pipelines provisioned via **AWS CDK**.
- **New York University (Novel AI Technologies, Inc.)** Aug 2024 – Present
Software Developer
New York, US
 - Developed an **insurance analytics platform (React, JavaScript, Node.js, REST APIs)** for P&C-style underwriting and risk workflows; deployed via **Docker** on **AWS EC2** for insurer and broker users.
 - Built a broker portal integrated with external insurer systems; implemented **RBAC** business rules, **WebSocket** status updates, and UI changes from business feedback across **6 insurance clients**.
 - Authored **SQL** ETL jobs into **PostgreSQL**; processed **250K+** records and supported validation and reporting for operations stakeholders.
- **PricewaterhouseCoopers (PwC)** Aug 2021 – Aug 2024
Senior Software Engineer
Bengaluru, India
 - Developed and maintained applications on **Microsoft Azure** using **C#/.NET** and **REST API** integrations with **Dynamics 365 CRM (COTS)**; wrote **SQL queries and stored procedures** over **SQL Server**.
 - Automated business workflows with **Power Automate** and **Azure Logic Apps**; documented solution designs and shipped changes through **Azure DevOps CI/CD** in an **Agile** regulated environment.
 - Troubleshooted production software issues, mentored engineers on **design patterns** and testing, and reduced defects by **25%** through disciplined review practices.

Projects

- **Hospital Management System (Full-Stack Application)** | *React, JavaScript, Node.js, REST APIs, SQL, MVC*
 - Built a client-server application with **React** UI and **REST APIs** managing appointments and patient records; applied **MVC** patterns, **role-based access control**, and documented designs for maintainable handoff.
 - Wrote **unit tests** for critical service paths and configured relational data models with **SQL** persistence patterns.
- **Advanced Expense Tracker (Java Desktop Application)** | *Java, JDBC, SQLite, SQL, JUnit, Design Patterns*
 - Architected a modular **Java** application with **OOP**, **MVC/DAO design patterns**, **SQL** persistence via **JDBC**, and **JUnit** tests for core business logic.

Skills

- **Programming Languages:** Java, C#, JavaScript (ES6), TypeScript, Python, SQL (T-SQL), C++
- **Web & Backend:** .NET, RESTful APIs, React, Node.js, Express.js, Microservices, Design Patterns
- **Databases:** SQL Server, PostgreSQL, MySQL, SQLite, DynamoDB
- **Cloud & DevOps:** Azure (DevOps, Logic Apps), AWS (EC2, Lambda, CDK), Docker, CI/CD, Git
- **Tools & Platforms:** Visual Studio, Postman, Power Automate, Linux, Windows

Certifications

[AWS Cloud Practitioner](#)
