

Education

New York University, New York, NY

Aug 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Data Structures, Machine Learning, Big Data, Advanced Java

Experience

- **Amazon** May 2025 – Aug 2025
Software Development Engineer Intern
Seattle, US
 - Shipped **React** and **TypeScript** UI integrated with **Java** backend **REST APIs**; broke down scoped features into phased deliveries with mentor guidance and wrote tests before **AWS CDK** rollout.
 - Designed and extended service contracts with **Protocol Buffers/CBOR**; debugged cross-tier defects, participated in **code reviews**, and incorporated feedback to keep changes clear and maintainable.
 - Supported operational readiness with structured logging and performance tuning on **ECS Fargate**; escalated reliability risks early during standups and design discussions.
- **New York University (Novel AI Technologies, Inc.)** Aug 2024 – Present
Software Developer
New York, US
 - Developed a customer-facing **web application (React, TypeScript, JavaScript, Node.js)** with **REST API** integration; implemented **Stripe** payment flows, **RBAC**, and multi-tenant controls across live client deployments.
 - Partnered with product and analytics stakeholders on requirements, trade-offs, and rollout support; authored **Python** and **SQL** data pipelines into **PostgreSQL** powering dashboards and reporting surfaces.
 - Troubleshoot production issues across frontend and backend layers; documented API behavior and improved error handling for broker and admin workflows.
- **CampusMesh** Jan 2026 – Present
Software Engineer
New York, US
 - Built **TypeScript/Node.js** microservices and **REST APIs** on **AWS (Lambda, API Gateway, S3)** across **4 environments**; delivered features through **Git** pull-request workflows with peer **code reviews**.
 - Improved observability with structured logging and monitoring hooks; collaborated on phased releases and kept-the-lights-on fixes for customer-facing academic workflows.
- **PricewaterhouseCoopers (PwC)** Aug 2021 – Aug 2024
Senior Software Engineer
Bengaluru, India
 - Delivered enterprise **web applications** on **Microsoft Azure** with **TypeScript/JavaScript** frontends and **SQL Server** backends; led **code reviews**, mentored engineers, and reduced production defects through disciplined testing.

Projects

- **Hospital Management System (Full-Stack Web Application)** | *React, TypeScript, JavaScript, Node.js, REST APIs, Jest, PostgreSQL*
 - Built declarative **React** UI flows with **TypeScript** and backend **REST APIs**; wrote **Jest** tests, debugged integration issues, and documented modules for collaborative delivery.
- **Flight Delay Prediction Pipeline (Data Processing Application)** | *Python, PySpark, SQL, HDFS, REST APIs*
 - Designed **Python** ETL jobs and **REST API** endpoints over large flight datasets; applied clear module boundaries, validation checks, and repeatable test runs before deployment.

Skills

- **Programming Languages:** TypeScript, JavaScript (ES6), Python, Java, Kotlin, SQL
- **Web & APIs:** React, Vue, API Design, Frontend Development, REST APIs, Node.js, Microservices
- **Quality & Collaboration:** Debugging, Code Review, Jest, Mockito, Git, Agile
- **Databases & Cloud:** PostgreSQL, MySQL, SQL Server, DynamoDB, AWS (CDK, ECS, Lambda, API Gateway), Docker

Certifications

AWS Cloud Practitioner

Stanford Machine Learning (Coursera)

Azure Data Fundamentals
