

Education

New York University, New York, NY

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Data Structures, Machine Learning, Big Data, Advanced Java

Aug 2024 – May 2026

Experience

- **New York University (Novel AI Technologies, Inc.)**

Software Developer

– Owned features end-to-end on an NSF-funded research platform, from prototype **web application** design through production rollout (**React**, **JavaScript**, **TypeScript**, **Node.js**, **REST APIs**) used by scientific and operations partners.

– Partnered with product stakeholders to ship broker and analytics workflows; implemented backend models, **API design**, and rich **frontend** components with **RBAC** across **6 clients**.

– Wrote well-documented, tested code and **SQL** ETL into **PostgreSQL**; iterated on UI from user feedback to drive feature completeness on high-impact modules.

Aug 2024 – Present

New York, US

• **Amazon**

Software Development Engineer Intern

– Engineered full-stack features with **React** UI components and backend **REST APIs** in **Java**; presented initial designs for review and shipped through **multi-stage CI/CD** with **unit/integration tests** (Mockito).

– Collaborated with senior engineers on architecture and code reviews; debugged cross-service issues and improved maintainability before large-scale rollout to operations users.

May 2025 – Aug 2025

Seattle, US

• **CampusMesh**

Software Engineer

– Developed **JavaScript/Node.js** backend services and member-facing **web application** flows backed by **MySQL**; documented API contracts and module READMEs across **4 AWS environments**.

– Shipped net-new notification and profile features quickly while hardening existing paths; participated in peer reviews and production troubleshooting with product partners.

Jan 2026 – Present

New York, US

• **PricewaterhouseCoopers (PwC)**

Senior Software Engineer

– Built production **web applications** on **Microsoft Azure** with **JavaScript/TypeScript** frontends and **REST API** integrations; led code reviews and mentored engineers, reducing defects by **25%**.

Aug 2021 – Aug 2024

Bengaluru, India

Projects

• **Hospital Management System (Full-Stack Web Application)** | *React, JavaScript, TypeScript, Node.js, REST APIs, SQL*

– Built a full-stack **web application** with **React** UI components, backend **API design**, and relational **SQL** persistence; wrote **unit tests** and documented modules for maintainable team handoff.

• **Task Management Dashboard (React SPA)** | *React, JavaScript, TypeScript, HTML, CSS, Jest, Git*

– Crafted interactive **frontend** architecture with **React** and **TypeScript**; achieved high test coverage with **Jest** and validated **API** integrations for real-time workflow updates.

Skills

• **Programming Languages:** JavaScript (ES6), TypeScript, Java, Python, SQL

• **Web & Product Engineering:** React, Frontend Development, Backend Development, API Design, Web Application Development, REST APIs

• **Databases:** PostgreSQL, MySQL, SQL Server, MongoDB, DynamoDB

• **Cloud & DevOps:** AWS (CDK, EC2, Lambda, ECS, API Gateway, S3), Docker, CI/CD, Git

• **Testing & Tools:** Jest, Mockito, JUnit, Postman, Visual Studio, Cursor, GitHub Copilot

Certifications

AWS Cloud Practitioner

Stanford Machine Learning (Coursera)

Azure Data Fundamentals
