

Education

New York University, New York, NY

Aug 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: Data Structures, System Design, Machine Learning, Big Data, Advanced Java

Experience

- **Amazon** May 2025 – Aug 2025
Software Development Engineer Intern
Seattle, US
 - Assisted in design, development, and maintenance of an internal web application with **React** UI and **Java** backend **REST APIs**; delivered features and bug fixes with mentor guidance across the full **software development lifecycle**.
 - Wrote **unit and integration tests** with **JUnit** and **Mockito**; troubleshooted defects, participated in **code reviews**, and incorporated team feedback before release.
 - Contributed to deployment automation through **AWS CDK** and **multi-stage CI/CD**; documented API behavior for maintainable handoff to engineers.
- **CampusMesh** Jan 2026 – Present
Software Engineer
New York, US
 - Developed and maintained **JavaScript/Node.js** services and **REST APIs**; debugged production issues and shipped enhancements through **Git**-based workflows across **4 environments**.
 - Collaborated with product stakeholders to deliver features; wrote **SQL queries** over **MySQL** and contributed to internal tooling and process improvements.
- **New York University (Novel AI Technologies, Inc.)** Aug 2024 – Present
Software Developer
New York, US
 - Built and maintained a data-heavy analytics application (**Python, JavaScript, Node.js, REST APIs**) deployed on **Docker/AWS EC2**; authored **SQL/ETL** jobs into **PostgreSQL** processing **250K+** records.
 - Collaborated with cross-functional partners to deliver enhancements; troubleshooted integration defects and iterated on features from user feedback.
- **PricewaterhouseCoopers (PwC)** Aug 2021 – Aug 2024
Senior Software Engineer
Bengaluru, India
 - Developed applications on **Microsoft Azure** using **C#/.NET** and **REST APIs**; participated in **Agile** ceremonies, code reviews, and **Azure DevOps CI/CD** deployments in a team environment.

Projects

- **Advanced Expense Tracker (Python Application)** | *Python, OOP, SQLite, Data Structures, Algorithms*
 - Built a modular **Python** application applying **object-oriented programming, data structures**, and thread-safe persistence; documented modules for maintainable collaboration.
- **Advanced Expense Tracker (Java Application)** | *Java, JDBC, SQLite, JUnit, OOP, MVC*
 - Developed a **Java** desktop application with **OOP** and **MVC/DAO** patterns, **SQL** persistence, and **JUnit** tests for core business logic.
- **Hospital Management System (Full-Stack Application)** | *JavaScript, React, Node.js, MongoDB, Unit Testing*
 - Built a full-stack web application with **REST APIs** and **role-based access control**; wrote **API unit tests** and documented designs for team handoff.

Skills

- **Programming Languages:** Python, Java, JavaScript (ES6), C++, C#, SQL
- **Computer Science:** Data Structures, Algorithms, Object-Oriented Programming
- **Web & Backend:** React, Node.js, Express.js, REST API, Microservices
- **Databases:** PostgreSQL, MySQL, MongoDB, DynamoDB, SQL Server
- **Cloud & DevOps:** AWS (EC2, Lambda, CDK), Azure DevOps, Docker, CI/CD, Git
- **Testing & Tools:** JUnit, Mockito, Jest, Postman, Visual Studio, Linux, Jupyter

Certifications

AWS Cloud Practitioner

Azure Data Fundamentals

Stanford Machine Learning (Coursera)
