

Education

New York University, New York, NY

Aug 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: Data Structures, System Design, Machine Learning, Big Data

Experience

- **CampusMesh** Jan 2026 – Present
Software Engineer
New York, US
 - Implemented scoped backend features and bug fixes in **Node.js REST APIs** backed by **MySQL (Sequelize)**; reproduced issues, shipped fixes, and kept tests passing through **Git** pull-request workflows across **4 environments**.
 - Participated in code reviews as author and reviewer; documented deployment runbooks and onboarding notes while using **Cursor** and **GitHub Copilot** to accelerate learning with full ownership of committed code.
- **Amazon** May 2025 – Aug 2025
Software Development Engineer Intern
Seattle, US
 - Shipped well-scoped **React 18** and **TypeScript** UI features and backend **REST API** changes with mentor guidance; wrote **unit/integration tests** with **Mockito** and incorporated feedback from code reviews.
 - Investigated cross-service defects, reproduced failures, and delivered fixes through **multi-stage CI/CD**; collaborated with senior engineers on design walkthroughs and release readiness.
- **New York University (Novel AI Technologies, Inc.)** Aug 2024 – Present
Software Developer
New York, US
 - Built user-facing web features in **React**, **TypeScript**, **HTML**, and **CSS**; translated product requirements into shipped changes with **SQL** reporting queries over **PostgreSQL**.
 - Maintained README and module documentation for handoff; partnered with stakeholders to iterate on small enhancements from user feedback.
- **PricewaterhouseCoopers (PwC)** Aug 2021 – Aug 2024
Senior Software Engineer
Bengaluru, India
 - Built **Angular** and **TypeScript** frontends integrated with enterprise CRM modules; wrote maintainable **HTML/CSS** components and participated in pull-request-based reviews on **Azure DevOps**.
 - Developed backend integrations over **SQL Server** with **SQL** queries and stored procedures; mentored junior engineers on fundamentals, testing, and clear technical communication.

Projects

- **Task Management Dashboard (Angular SPA)** | *Angular, TypeScript, HTML, CSS, RxJS, Jest, Git*
 - Built an interactive **Angular** single-page app with **TypeScript**, responsive **HTML/CSS** layouts, and **Jest** unit tests across components and services; managed changes through **Git** with documented setup steps in the README.
- **Hospital Management System (Full-Stack Web Application)** | *JavaScript, TypeScript, React, Node.js, HTML, CSS, Unit Testing*
 - Developed a full-stack portal with **REST APIs** and role-based access control; wrote **API unit tests** for critical paths and documented modules for team onboarding.

Skills

- **Programming Languages:** TypeScript, JavaScript (ES6), PHP, Go, Python, Java, SQL
- **Web & Frontend:** Angular, React, HTML, CSS, REST API, Node.js, Express.js
- **Databases:** MySQL, PostgreSQL, SQL Server, MongoDB, DynamoDB
- **Tools & Practices:** Git, CI/CD, Jest, Mockito, Cursor, GitHub Copilot, Postman

Certifications

AWS Cloud Practitioner

Azure Data Fundamentals

Stanford Machine Learning (Coursera)
