

Education

New York University, New York, NY

Aug 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Data Structures, Computer Architecture, Machine Learning, Big Data

Experience

- Amazon

May 2025 – Aug 2025

Software Development Engineer Intern

Seattle, US

- Built and maintained a responsive **React 18** and **TypeScript** operations console integrated with backend **RESTful APIs**; improved UX with client-side caching, advanced filtering, and route-level code splitting, reducing page load time by **40%**.
 - Designed portable UI modules and **API** integration patterns consumed across role-based workflows; wrote **Jest** and **React Testing Library** tests and shipped through **multi-stage CI/CD** via **AWS CDK**.
 - Partnered with senior engineers on low-level service integration and high-level UX trade-offs; participated in code reviews and debugged cross-application defects before production rollout.
- New York University (Novel AI Technologies, Inc.)

Aug 2024 – Present

Software Developer

New York, US

- Developed cross-surface **frontend software** for an analytics **web application (React, TypeScript, JavaScript, HTML, CSS)** with responsive layouts and shared component patterns across broker and admin experiences.
 - Built a reusable **React** component library and ergonomic interfaces that accelerated delivery across multiple product surfaces; integrated real-time updates via **WebSocket APIs** and role-scoped dashboards.
 - Collaborated with product and engineering partners to translate workflow requirements into intuitive UI behavior; documented frontend modules and **API design** contracts for adoption by adjacent teams.
- CampusMesh

Jan 2026 – Present

Software Engineer

New York, US

- Shipped member-facing **JavaScript/TypeScript** web experiences and backend **REST APIs**; improved notification and profile flows through rapid iteration with cross-functional partners across **4 environments**.
 - Delivered features through **Git**-based review workflows with emphasis on maintainable frontend code and clear communication in collaborative engineering culture.
- PricewaterhouseCoopers (PwC)

Aug 2021 – Aug 2024

Senior Software Engineer

Bengaluru, India

- Delivered accessible **HTML/CSS** and **TypeScript** UI components for enterprise web deployments; established frontend review standards and mentored engineers on clean, effective client-side code.

Projects

- Task Management Dashboard (Cross-Surface React SPA) | React, TypeScript, JavaScript, HTML, CSS, Web APIs, Jest, Git

- Crafted portable **frontend** interactions with **React** and **TypeScript**; integrated browser **Web APIs** for dynamic UI state and wrote **Jest** tests with **Git**-based review workflows.
- Hospital Management System (Full-Stack Web Application) | React, TypeScript, JavaScript, Node.js, REST APIs, Jest

- Built intuitive multi-flow **web application** UI with **RESTful API** integration; documented frontend modules for collaborative development across application surfaces.

Skills

- Frontend:** JavaScript (ES6), TypeScript, React, HTML, CSS, Responsive Design, Component Libraries
 - Web & APIs:** Web APIs, RESTful APIs, WebSocket, API Design, Fetch API
 - Quality & Delivery:** Jest, React Testing Library, Git, CI/CD, Code Review, Debugging
 - Backend & Systems:** Node.js, Java, SQL, Data Structures, Algorithms, System Design
 - Tools:** Visual Studio, Cursor, GitHub Copilot, Postman, AWS (CloudFront, S3, Lambda)

Certifications

AWS Cloud Practitioner

Azure Data Fundamentals

Stanford Machine Learning (Coursera)
