

Education

New York University, New York, NY

Aug 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Data Structures, Machine Learning, Big Data, Advanced Java

Experience

• New York University (Novel AI Technologies, Inc.)

Aug 2024 – Present

Software Developer

New York, US

- Developed business-critical **web** and **mobile** product experiences (**React**, **TypeScript**, **JavaScript**, **HTML**, **CSS**, **React Native**) with **REST APIs**; implemented **Stripe** billing flows for subscription-style commerce across live client deployments.
- Built a cross-platform **React Native** app for **iOS** and **Android** with backend **REST APIs** and **PostgreSQL**; improved **performance optimization** of telemetry dashboards and documented feature behavior for product partners.
- Partnered with product stakeholders on requirements and technical approaches; deployed containerized services with **Docker** on **AWS EC2** and troubleshooted production issues from release telemetry.

• Amazon

May 2025 – Aug 2025

Software Development Engineer Intern

Seattle, US

- Shipped **React** and **TypeScript** UI components integrated with **Java** backend **REST APIs**; applied client-side caching and route-level code splitting for **performance optimization**, reducing page load time by **40%**.
- Wrote robust **unit** and **component tests** with **Jest** and **React Testing Library**; participated in pull-request reviews and shipped features through **multi-stage CI/CD pipelines** via **AWS CDK**.
- Collaborated with senior engineers on design plans, debugged cross-tier defects, and monitored release behavior through structured logging before production rollout.

• CampusMesh

Jan 2026 – Present

Software Engineer

New York, US

- Delivered member-facing **JavaScript/TypeScript** web workflow changes and backend **REST APIs** on **AWS** across **4 environments**; reviewed pull requests and improved notification flows from production feedback.
- Supported platform releases with structured logging and monitoring hooks; documented technical approaches for scalable service integration in a fast-paced delivery environment.

• PricewaterhouseCoopers (PwC)

Aug 2021 – Aug 2024

Senior Software Engineer

Bengaluru, India

- Delivered enterprise **JavaScript/TypeScript** and **Java** web applications on **Microsoft Azure**; led code reviews, mentored engineers on sustainable UI patterns, and shipped through **Azure DevOps CI/CD** pipelines.

Projects

• Remote Health Panel (Cross-Platform Mobile App) | React Native, TypeScript, JavaScript, HTML, CSS, REST APIs, Jest

- Built a **React Native** experience for **iOS** and **Android** with secure auth and real-time dashboards; integrated cloud-backed **REST APIs** and wrote component tests with **Jest**.

• Hospital Management System (Product Web Application) | React, TypeScript, JavaScript, HTML, CSS, Node.js, REST APIs, Jest

- Crafted **React** and **TypeScript** UI flows with backend **REST APIs**; wrote **Jest** unit and component tests and documented development modules for team collaboration.

Skills

- **Frontend & Mobile:** JavaScript (ES6), TypeScript, React, React Native, HTML, CSS
- **APIs & Backend:** REST APIs, GraphQL, Node.js, Java, Microservices
- **Quality & Delivery:** Jest, React Testing Library, Git, CI/CD Pipelines, Code Review, Docker
- **Performance & Platform:** Performance Optimization, AWS (EC2, Lambda, S3), PostgreSQL, MySQL

Certifications

AWS Cloud Practitioner

Stanford Machine Learning (Coursera)

Azure Data Fundamentals
