

Education

New York University, New York, NY

Aug 2024 – May 2026

Master of Science in Computer Engineering (GPA: 3.9/4.0)

Coursework: System Design, Data Structures, Machine Learning, Big Data, Advanced Java

Experience

- Amazon

May 2025 – Aug 2025

Software Development Engineer Intern

Seattle, US

– Built and maintained a responsive **React 18** and **TypeScript** web console integrated with **RESTful APIs**; improved member-facing performance with client-side caching and route-level code splitting, reducing page load time by **40%**.

– Wrote clean, well-tested UI code with **Jest** and **React Testing Library** covering auth flows and data-fetching components; participated in code reviews and incorporated feedback before production release.

– Partnered with senior engineers to break down features, identify risks early, and iterate on UX for role-based workflows used by **500+** operations users.
- New York University (Novel AI Technologies, Inc.)

Aug 2024 – Present

Software Developer

New York, US

– Developed user-facing **frontend software** for an analytics **web application (React, TypeScript, JavaScript, HTML, CSS)** with responsive layouts and **RESTful API** integration across broker and admin experiences.

– Collaborated with product stakeholders to ship UI enhancements from feedback and usage patterns; built a shared **React** component library that accelerated delivery across multiple product surfaces.

– Integrated real-time updates via **WebSocket** channels and role-scoped dashboards; supported experiment-style rollouts and iteration across **6 live clients**.
- CampusMesh

Jan 2026 – Present

Software Engineer

New York, US

– Shipped member-facing workflow changes in **JavaScript/TypeScript** services and web experiences; delivered features through **Git** pull-request workflows across **4 environments** with clear communication in reviews.

– Monitored frontend-adjacent integration issues and improved usability of notification and profile flows through rapid iteration with cross-functional partners.
- PricewaterhouseCoopers (PwC)

Aug 2021 – Aug 2024

Senior Software Engineer

Bengaluru, India

– Delivered accessible **HTML/CSS** and **TypeScript** UI components for enterprise web deployments; established frontend review standards and mentored engineers on maintainable component design.

Projects

- Hospital Management System (Member-Facing Web App) | React, TypeScript, JavaScript, HTML, CSS, REST APIs, Jest

– Built a responsive **web application** with intuitive UI flows for appointments and records; integrated **RESTful APIs**, wrote component tests, and documented frontend modules for collaborative development.
- Task Management Dashboard (React SPA) | React, TypeScript, HTML, CSS, Jest, Git

– Crafted engaging **frontend** interactions with **React** and **TypeScript**; achieved high test coverage with **Jest** and managed changes through **Git**-based review workflows.

Skills

- **Frontend:** Frontend Software Development, React, TypeScript, JavaScript (ES6), HTML, CSS, Responsive Design
- **Integration & Quality:** RESTful APIs, Jest, React Testing Library, A/B Testing Frameworks, Git
- **Backend & Tools:** Node.js, Java, SQL, Postman, Visual Studio, Cursor, GitHub Copilot
- **Databases & Cloud:** PostgreSQL, MySQL, DynamoDB, AWS (CloudFront, S3, Lambda)

Certifications

AWS Cloud Practitioner

Azure Data Fundamentals

Stanford Machine Learning (Coursera)
