Respected, Hiring Manager

New York Air Brake (NYAB)

Watertown, NY

Subject: Application for Intern, Data Analytics and Business Intelligence

Dear Hiring Manager,

I am **certified in Power BI Data Analyst Associate and Azure Data Fundamentals**, demonstrating my proficiency in **business intelligence, reporting, and data-driven decision-making**. Currently, I am pursuing a **Master of Science in Computer Engineering at NYU (GPA: 3.9/4)**, where I have been actively involved in **data engineering and analytics-driven projects**. Through my coursework and industry experience, I have developed expertise in **data visualization, ETL pipelines, SQL development, and cloud-based analytics**.

Relevant Experience:

New York University – On-Campus Data Analyst/Engineer

- Developed **data visualization dashboards in AWS QuickSight and Q** for predictive **healthcare analytics**.
- Engineered an **ETL pipeline to ingest and transform NoSQL JSON data from 10,000+ users into PostgreSQL** using **GCP Cloud Functions**.
- Automated **data pipeline workflows in AWS** using **EventBridge and Lambda**, improving **data accuracy and analytics efficiency**.

Price Water House Coopers – Senior Technology Consultant

- Built **interactive dashboards and KPI scorecards in Power BI** to enable **real-time business intelligence insights**.
- Developed optimized **SQL queries for data extraction and transformation**, handling large datasets in **Snowflake, PostgreSQL, and Azure Databricks**.
- Collaborated with **BI analysts and stakeholders**, participated in **Agile sprints for BI reporting**, and mentored junior team members, improving **data processing efficiency by 30%**.

I am particularly excited about the opportunity to contribute to **NYAB's data analytics and business intelligence initiatives**, leveraging my skills in **data-driven decision-making, cloud computing, and visualization**. My background in **ETL pipelines, Power BI, AWS QuickSight, SQL optimization, and stakeholder collaboration** makes me a strong candidate for this role.

Best regards,

Ajay Venkatesh
